swimkleen ATV

Geared for all pools

Designed and developed with the benefit of over 35 years' experience, Swimkleen-ATV is the most technically advanced pool cleaner of its type in the world. Easy to install and operate, it features high-quality componentry and top-shelf features to match.

Patented steering system

– the left wheel is set to reverse at intervals, turning the unit in different directions so it doesn't get stuck in corners. Ideal for pools which have coverage issues.

Patented adjustable skirts

– feature rollers that maintain optimal suction, even when faced with the most difficult obstacles.

Energy saving throat insert

– when using a variable speed pool pump, the cleaner's small throat insert allows it to operate at the pump's low speed/flow. This results in reduced energy use and running costs.

Robust tyre treads

– patented tyre treads ensure excellent climbing ability and the manoeuvrability to handle any obstacle, making it ideal for all pool shapes and surfaces. Special tyres are available for tiled pools.

Stainless steel wheel bearings

– are non-corrosive, which minimises friction in the wheels and improves torque to increase suction power.

Easy to install

– Swimkleen-ATV can be up and running in just a few minutes by following the easy instructions.

INDUSTRY BEST

4+3

WARRANTY

4 YEARS FULL + 3 YEARS PRO RATA

Patented, self-adjusting turbine vanes

– allow passage of large debris, virtually eliminates clogging. They also maximise power from water flow.

Swimkleen-ATV also comes with:

- Available in 2 x models, a two-wheel cleaner with standard tyres or two-wheel cleaner for tiled pool with special purpose tyres
- 10 x Connector Hoses
- 1 x Hose Cone
- 1 x 90° Hose Connector and Regulator Valve
- 1 x Low Flow Throat Insert (for variable speed low flow pumps)

swimkleen NAV

The smart pool cleaner

Leading-edge V-Flex™ technology and intuitive SmartDrive® Steering System ensure Swimkleen-NAV provides complete coverage, easy manoeuvrability, easier passage of larger dirt and debris without blockages – and energy savings. Ideal solution for variable-speed pumps.

Ideal for use with variable speed pumps

– Patented V-Flex™ technology, wide vacuum inlet and unique wing design prevents blockages while delivering maximum suction power, even at low flow.

Patented SmartDrive® Steering

– adaptive steering system improves manoeuvrability, speed and efficiency providing thorough, self-sufficient coverage of the pool floor, walls and coves.

Silent operation

– no pulsating hoses or noisy components.

Eliminates hose tangling

– due to the adaptive steering system.

Easy to use

– connects to a skimmer or suction port in less than 10 minutes.

Simple to maintain

– fewer moving parts makes it easy to service and maintain.

3 YEAR
WARRANTY

Patented anti-blocking design

– features V-Flex™ technology that virtually eliminates blockages

Swimkleen-NAV also comes with:

- 11 x 1m Connector Hoses
- 1 x Regulator Valve, Flow Gauge, Cone Adaptor and Skimmer Elbow
- Swimkleen-NAV comes fitted with shoes to suit a concrete pool as well as a set of cork shoes suitable for fibreglass and vinyl liner pools (ceramic shoes for tiled pools are available)

swimkleen 2

Whisper quiet operation

Featuring simple installation and reliable operation, the entry-level Swimkleen2 is equipped with a pivot keel that offers enhanced stability and agility, particularly when navigating tight corners, swimout steps and underwater bench.

Swimkleen2 also includes a special diaphragm – the cleaner’s single moving part – which is the only component likely to need regular maintenance. It also provides whisper quiet operation that won’t disturb your neighbours.

Pivot keel for agility and stability

– improves cleaner agility around the pool, particularly in tight corners and steps. It also balances the cleaner during operation.

Durable, reliable and manoeuvrable

– tough polyurethane V-Max 36 finned disk easily navigates over obstacles, then scoops and funnels debris.

Long life hoses designed for speed

– high-quality non-spiral hose features extra spring for improved speed and efficiency, and moulded cuffs.

Swimkleen2 also comes with:

- V-Max 36 Finned Disk, Diaphragm, Foot Pad and Pivot Keel
- 10 x 1m Hose Lengths
- Adjustable Flow Control Valve
- Skimmer Weir and Elbow Adaptor
- 2 x 45° Elbow Adaptor
- Deflector Wheel
- Hose Jogger

3 YEAR
