

An underwater photograph of a swimmer in clear blue water. The swimmer is wearing a blue and orange snorkel mask and is looking down towards a circular pool drain on the pool floor. The drain is set into a light-colored tiled floor. A few small bubbles are visible in the water above the swimmer. The overall scene is bright and clear, emphasizing the visibility and safety of the drain.

Eclipse™ Drain

Redefining Pool Drains

B L U E S Q U A R E

**Remove
Large
Debris
with Beauty
and Ease**

The most advanced drain on the market

Remove large debris with beauty and ease

- Blends into any pool surface making it virtually invisible

- Made in the USA
- Easy access portal
- Optional Hydrostatic Valve for high water tables
- No stubbing toes
- Flush design, robot cleaners won't get stuck
- Available in two colours, White and Grey
- Great for spas and catch basins
- Max allowable pulling power*

**VGBA,
ANSI 16 & AS/NZS
Compliant as a
single source
unblockable
drain**

*157 GPM @ 1/2 foot per sec ANSI 16

One of the largest debris capacities on the market

Combine with the Waterco Leaf Trapper to maximize performance

The Waterco Leaf Trappers innovative design provides one of the largest debris capacities on the market! The leaf trapper captures debris and channels it to the bottom of the 800 micron filter bag minimizing flow loss for maximum efficiency. The innovative design keeps heavy debris from interfering with the operation of your pool equipment and filtration system while maintaining steady water flow.

- Designed for maximum flow while allowing for high volume debris
- Conveniently located by the pool equipment for easy access
- Can plumb 2 or more parallel for heavy debris environments
- High capacity bag design
- No unsightly deck lids
- Clear pressure safe lid
- Sized for 50mm PVC Class 12 pipe

Before you see the Eclipse™ Drain, the debris is gone!

Blue Square brings together style and functionality to redefine the pool drain!

Why should your cleaning system be the ugliest part of your swimming pool. The patented Eclipse™ Drain* virtually disappears into the surface of your pool. Blue Square is changing the way the industry looks at drains and debris removal systems!

A unique, sleek circular design, the Eclipse™ virtually disappears in the floor of your pool by blending into any pool surface.

The revolutionary circular channel provides maximum flow and efficiently removes debris. Use in conjunction with the Blue Square In-floor System and Waterco Leaf Trapper to maximize performance!

** The Eclipse™ Drain is VGBA Compliant**
"Single Source Suction"
