

# The Art of the Invisible Drain.

Why settle for an eyesore when you can have an innovation? Blue Square redefines the pool floor by merging high-end style with unrivaled functionality. The Hydrofusion™ Drain doesn't just sit there—it virtually disappears into your pool's finish.

**Disappearing Act:** A sleek, rounded design that blends seamlessly into any surface.

**Engineered Flow:** Revolutionary channel technology provides maximum suction for effortless debris removal.

**Total Synergy:** Pair with the Blue Square In-Floor System and Trimline Leaf Trapper for a pool that stays pristine without the visual clutter.

Before you even notice the Hydrofusion™ Drain, the debris is already gone.

\* The Hydrofusion Drain is VGBA Compliant™  
“Single Source Suction”

**WATERCO**  
water, the liquid of life

Waterco pioneers reliable solutions for healthy, safe water environments, which are used in residential, commercial and industrial applications in over 40 countries.

Established in 1981, it has since become a global brand recognised for designing and manufacturing filtration and sanitisation innovations for the swimming pool, spa, aquaculture, and water purification sectors.

[ Redefining Pool Drains ]

# Effortless Clean, Invisible Design

## The most advanced drain on the market

- Enhanced Debris Capture: Optimised channel design directs more debris towards the drain centre
- Highly Compatible: Flexible with various pool setups; compatible with 50mm plumbing
- Lasting Performance: Stronger solvent welds to PVC plumbing systems
- Flush Design: No more stubbing toes on protruding drains, while also preventing robotic cleaners from getting stuck
- Fully VGBA Compliant: The single source suction drain exceeds safety requirements
- Widened Channel Openings: Removes large leaves and debris thanks to the optimal design
- Optimised Functionality: Centre cap reduces turbulence and improves hydraulic performance
- Unblockable Power: Capable of handling flow rates of up to 780 LPM
- Hydrostatic Relief: Features an optional hydrostatic valve port, perfect for pools with high water tables
- Colour Options: Available in two colour options (White or Grey) to match different pool aesthetics
- Durable Construction: Made from durable PVC material, ensuring stronger solvent welds to PVC plumbing systems for lasting performance

**VGBA & ANSI  
16 Compliant  
as a single source  
unblockable  
drain.**

## Protect Your Paradise. Simplify Your Service.

The Waterco Trimline Leaf Trapper is the ultimate safeguard for your pool's circulation system. By capturing leaves and debris before they reach your pump, it maintains steady water flow and extends the life of your equipment.

Why Choose the Trimline Leaf Trapper? The Trimline's innovative design offers one of the most efficient debris-capture solutions on the market. Unlike traditional systems that clog and choke your flow, the Leaf Trapper channels debris into a high-capacity basket, keeping it away from the main water stream. This ensures your pool stays pristine and your filtration system runs at peak performance without interruption.

**Clean Aesthetic:** Eliminates the need for deck-side canisters.

**Built to Last:** Constructed from high-quality, pressure-rated materials.

**Easy Interaction:** The clear lid takes the guesswork out of maintenance.
